Please write a brief description below of how you feel your expertise can be an asset to the board and how you can contribute to the mission of the Florida Gulf Coast Chapter:

I hope to continue our efforts to date and help further the organization as a leader in sustainability and green building practices throughout the Tampa Bay area.

I currently help several corporations with their sustainability initiatives. Bringing practical solutions to bear in challenging economic conditions should create opportunities for implementing sustainable strategies. Currently this is a concept that is not as well-embraced as it should be throughout the area and the country. Hopefully, we can work together to change this.
